

Mt. Crested Butte Water and Sanitation District

Wastewater Treatment Plant Operator

Job Summary

The Wastewater Treatment Plant Operator is an integral part of the plant operations team who will also communicate and work closely with other treatment plant staff. The Wastewater Treatment Plant Operator adjusts and monitors wastewater treatment plant equipment, monitors treatment parameters, performs process control lab tests, records data, adjusts the application of chemicals and maintains the operations of the treatment facility, prepares reports, and works on special projects, as assigned. The position requires being able to work flexible schedules, which at times will include working weekends, holidays, evenings, or "on call" shifts. The job is primarily based at the Wastewater Treatment Plant, but cross-training and work will include the Water Treatment Plant. An ideal candidate will have a minimum of a high school diploma with a higher education, or be able to demonstrate experience in water treatment, biology/chemistry, spreadsheets, and mechanical skills. This is a full-time, year-round position with benefits.

Salary and Benefits

Excellent benefit package includes 100% employer paid premium on medical, dental, vision, & life insurance for the employee and his/her family. Other benefits include 12 paid holidays, two weeks paid vacation, paid sick leave, a retirement plan of up to 8% employer contribution match, , an employer provided uniform, and a wellness bonus.

Entry Level starting wage is \$27.00 to \$30.00. DOQ

Experienced operators starting wage is \$30.00 to \$37.50. DOQ

Experience, Knowledge, Skills

- A current State of Colorado Wastewater Treatment Plant Operators Certification (Class "D") and/or Collections (Class "1") is desired for entry level position, or ability to obtain within one (1) year. Relevant license attainment leads to incremental salary increases.
- Knowledge of wastewater treatment practices and laboratory water quality parameter testing procedures is desired.
- Knowledge of equipment including SCADA systems and wastewater treatment plant instrumentation is desired.
- Ability to perform daily recordkeeping, water quality sampling, and routing laboratory analysis.
- Current Colorado driver's license and acceptable motor vehicle record.
- Current Commercial Driver's License (CDL) is desired or ability to obtain within twelve (12) months of start date is required.
- Valid Adult CPR certificate is desired.
- Working knowledge of applications software for Windows and Microsoft Office is desired.

Mt. Crested Butte Water and Sanitation District

Wastewater Treatment Plant Operator

Essential Functions

- The ability to communicate face to face and by telephone.
- Follow written and/or verbal instructions.
- Establish and maintain effective working relationships with supervisors, co-workers, and the general public.
- Ability to work without direct supervision and/or in groups.
- Work flexible hours, including weekends, holidays, and other shifts/times when work demands.
- The ability to work independently, performing all routine plant operations and handling “alarm” situations.
- Handle difficult situations using tact, patience, and good judgment.
- Attend safety sessions and keep informed about safety and emergency procedures.
- Perform related duties and responsibilities as assigned.

WORK ENVIRONMENT

- Work in varied weather conditions.
- Potential exposure to pathogens, high noise levels, fumes or particles; risk of electrical shock.
- Potential exposure to toxic or caustic chemicals used in wastewater treatment.
