MCBWSD Inspector:

Diagram for Location of curbstop, triangulate off two corners of the foundation or known points.

The diagram area is a large empty box for drawing a site plan. It includes a compass rose with 'N' at the top, 'S' at the bottom, 'E' on the right, and 'W' on the left. The text above the diagram instructs the user to triangulate the curbstop location off two corners of a foundation or known points.
